

The background image shows two men in an outdoor setting. The man on the left is wearing a grey t-shirt and a grey cap, smiling and holding a wire snare trap. The man on the right is wearing a blue and white striped shirt and a blue cap, also holding a wire snare trap. In the background, there are various sculptures of animals, including a large bird, a giraffe, and a lion, made from wire and other materials. The text 'SNARE ART' is overlaid in large, bold, black letters on a semi-transparent white background.

## Mounted collection

# 2019

SNARE Art mounted pieces come in regular sizes (detailed in the table below). These pieces are made from 100% recycled snare material which was used to poach African wildlife. The base is made from invasive exotic wood removed from Africa's natural areas. These pieces make exquisite decorative art pieces or unique trophies. Each mounted piece comes with a certificate of authenticity listing the area from which the snares used were collected as well as the number of snares used to complete the piece. By purchasing a SNARE Art mounted piece, not only are you playing a role in protecting Africa's magnificent wildlife, but you are also assisting in the development of local underprivileged African artists.
